WEEKLY CIRCULATION OF 1,400
Circulated in a progressive town of 1,000 population and in adjacent prairie farming district.

THURSDAY, JAN. 31st, 1929

THE BEATING DEVL

A writer in the North American Review states that the advanced ideas of Darwinism have been accepted in Tennessee. From mornings with fifty editors of that state, it has been learned that "Darwinism" has been substituted for "evolution," and that is because one editor puts it, "It is impossible to teach biology, psychology and physiology without accepting the theory of the evolution and development of organic life."

On the other hand, the devil around the head. The theory of evolution was barely announced when it was met with a challenge to religious faith. When Darwin's theory was first presented before the Royal Society of the Advancement of Science, Thomas Huxley was its learned champion. In 1860, the University of Oxford had a notable controversy on the subject. Since that time the taint of heresy has been attached to

the theory, and that was sufficient reason to cause many to refuse to submit the question to judgment of reason and the evidence of their own eyes.

With the progress of knowledge, many of Darwin's conclusions will be accepted, if not all, and indeed, entirely discarded; but in the meantime the Darwinian theory forms a basis for the acceptance of the hypothesis by which the development of organic life may be explained.

Only seventy years have passed since Darwin announced his researches, and to this day there are people still living who can remember the heated nature of the early controversies over his theory.

It has been to encounter all kinds of prejudices, preconceptions and even personal animosity in spite of open opposition, it is rather remarkable that the theory has survived so long.

The anti-evolution states may attempt to save their faces by giving up the theory, but the advancing knowledge will make that subterfuge unnecessary to the next generation.

CHURCH ANNUAL CONGREGATIONAL MEETING

A very representative congregation took place in the Parish Hall two weeks ago. It began the session when "Stock was being taken" and the year 1928 reviewed. It was the third annual meeting of the church convened to hear reports of progress or otherwise of the church and its auxiliary organizations.

FAREWELL FUNCTIONS FOR
MR. AND MRS. T. GOODRICH

A number of special functions and parties have been held within the past few days in honour of Mr. and Mrs. T. Goodrich, of the Alberta Telephone Department, who are leaving Macleod for Camrose, where Mr. Goodrich has been appointed in charge of the Government Telephones in that city. Mr. and Mrs. Goodrich have resided in Macleod during the few years they have been resident here and it is the meetings of the lodge, luncheon was served and a social time was enjoyed for the remainder of the evening.

Mrs. W. G. Andrews entertained at her home on Friday night. The Fort Macleod Chapter of the Order of Eastern Star No. 63, held their annual meeting with all members invited to bid farewell to Mrs. Goodrich. Mrs. J. M. Swanson, president of the local chapter, presided. A basket of homemade silver cake, basket, and express the regards of the members at losing her

from the meetings of the lodge. Luncheon was served and a social time was enjoyed for the remainder of the evening.

Mr. and Mrs. T. Doney were entertained at their home on Saturday night when three tables played, spending a very pleasant evening. Mrs. Arthur Young, president, and Mrs. R. Hamilton was awarded the consolation prize. Mrs. Andrews was presented with a basket of flowers and a bouquet of lilies. Refreshments were served.

James Young entertained also at bridge in honor of Mrs. Goodrich. Mrs. Goodrich was the guest of honor at a bridge party given by Mr. R. Grier not the consolation. There were twelve guests making three tables and a very pleasant evening enjoyed by all. Mrs. Goodrich was presented with the guest of honor prize. Refreshments were served.

A Bid For Freedom:

THE trend of business is towards amalgamation and concentration through combinations of many small ones. In the face of this development the farmer as a single unit has found himself isolated, helpless and working at a disadvantage.

The first step taken by producers to remedy their position was the formation of producer's co-operatives, of which the Wheat Pool is the most notable example. In the Pool the strength of unity has been demonstrated time and again.

For the protection of himself and his family, and for the advancement of agriculture in general, every wheat producer in Canada must join the Alberta Wheat Pool.

There is no question but that the Wheat Pool has corrected abuses, increased grain trade profits, stabilized markets, and lessened disastrous speculation for the benefit of ALL wheat growers in Canada.

Undoubtedly the Wheat Pool has paid higher average prices to its members than the Grain Trade has paid to non-Poolers.

The Pool elevator system, operated on a profit basis, has given its patrons service at cost, fair weights and grades, and a measure of protection never before accorded.

To those Who Have Not
Yet joined the Wheat Pool:

Are you going to buy and maintain private grain and elevator systems? And provide abundant profits for yourself and your year after year?

Or are you going to join the Wheat Pool ranks and work for your own interests and the interest of your pool neighbors?

The Alberta Wheat Pool
Lethbridge Building, Calgary

To be certain of one's hospitality one must be certain of the beverages with which guests are to be entertained. Alberta's Malt Beverages certainly are good—

Secretary.

thankful and appreciation to the mayor and councilors for the splendid results of their work during the year. The mayor in acknowledging the compliment said: "We have had a very good year. The reports and discuss town affairs show that there are no burns, the quality of water is excellent, the spirit of the people is high, the town is safe, and also that the taxpayers are entirely satisfied with what the mayor and council have been doing."

On the same, it is rather unfortunate that more did not think it worth while to present and hear the mayor's report given by Mayor McLeod at the annual meeting. He told of how in about five years the taxes had been reduced 45 per cent, the water supply increased, the electric light, notwithstanding the reduction in the town to lay in accordance with the original plan, the certificates of \$40,000, about \$27,000 in the bank on December 31. A few weeks ago the mayor suggested to the council to contribute so much every year towards paying debts or anything else that may be necessary to be used in case of emergency, for paying debts or anything else, but the amount was placed in escrow for the next year.

The mayor told of the large amount of repair work that had been done on the buildings for cut of current revenue. Over \$4,000 had been spent on renewing the roofs, painting the buildings, the same amount for public works, streets and sidewalks. The mayor said that the water main had been replaced at a cost of \$900 yet to renew water mains, as the amount of water being pumped was not enough to meet the demand necessary, even though the amount is less than half what was required a few years ago.

McDonald spoke of the number of houses belonging to the town on the central lots. The town had either sold these houses at a very low price or had to rebuild them and make them fully modern, thus making them more valuable.

He said that the town had a large amount of land available for building.

Following the study we have the business session, or occasionally the social session. At the end of the session the Trail Rangers and the Taxicab group get together in a cakewalk class and give us the word we will be able to get a ride.

Then we take a walk around the town, and then we go to the University. The exercise lasts for 30 minutes or so, and then we go home.

Then we go home for two hours and go to bed.

During the year we have had several great events. (1) We were affected by the fire at the Lethbridge bridge and given a free passage by Mr. Knight. (2) We were trained in the new motor boat "Lethbridge Up," which we had seen at Lethbridge and were given a free ride.

Then we take a walk around the town, and then we go to the University. The exercise lasts for 30 minutes or so, and then we go home.

Then we go home for two hours and go to bed.

During the year we have had several great events. (1) We were affected by the fire at the Lethbridge bridge and given a free passage by Mr. Knight. (2) We were trained in the new motor boat "Lethbridge Up," which we had seen at Lethbridge and were given a free ride.

Following the study we have the business session, or occasionally the social session. At the end of the session the Trail Rangers and the Taxicab group get together in a cakewalk class and give us the word we will be able to get a ride.

MACLEOD MOTORS

While They Last!

A "Save-A-Pie" Pie Plate given free with a 4-lb. tin of Crust. This pie plate has a special flange which prevents the contents of the pie from running over. No lost juice, no messy ovens or gummed pans.

For Rural Schools

We have received a request from the Public School Sweeping Fund which has a net income of \$4,50 per annum. This sweeping compound eliminates the dust nuisance, is a labor saver and an aid to sanitation and healthfulness in the School room. A drum will last for months.

For the Curlier

We have received another lot of Curly brooms. With one of these brooms you will be an asset to your ride even when "off your game."

THE WHITE HALL

(OPERATING THE CHILD'S SAVING PLAN)
